RS Asset Management Co., Ltd.

Announcement

Construction of Chiba Kimitsu No.2 Solar Power Plant

RS Asset Management Co., Ltd. will construct Chiba Kimitsu No.2 Solar Power Plant in Kimitsu-shi, Chiba.

Chiba Kimitsu No.2 Solar Power Plant is estimated to generate approximately 1,275,000kWh of electricity per year, an amount equal to the annual electricity consumption of 354 households*¹. The power plant is also estimated to contribute to reduction of approximately 661 tons of CO₂ emissions*² per year, equivalent to the amount of CO₂ that 47,000 cedar trees absorb yearly*³.

RS Asset Management will continue to contribute to the infrastructure reform in Japan through clean and safe power supply.

*¹ Calculated at 3,600kWh/year per household

*² Calculated at 0.000518 carbon dioxide emission factor

*³ Calculated at 14 kg CO₂ absorption/year per cedar tree

■ Summary of Chiba Kimitsu No.2 Solar Power Plant

Location	Kimitsu-shi, Chiba
Site Area	36,534 m ²
Output	1,152 kW (About 1.2MW)
Annual Power Generation Capacity	About 1,275,000kWh/year Equivalent to the annual electricity consumption of 354households
Commercial Operation Date	Scheduled for October, 2022
